

I find this bill appalling due to the fact that it wants to limit a service I subscribe to, in order to promote an inferior prioduct. As a satelite radio user, I will never go back to local broadcasts whether in my car or at home. The number of commercials and the incessant pointless talk of the DJs interferes with my ability to enjoy the kind of music I want to listen to. Additionally I should not be forced to listen to this when I want to hear local traffic or weather on the radio.
